

The Friends of the Porter's Garden

invite you to become a

Volunteer gardener

at

The Porter's Garden in Portsmouth Historic Dockyard

The Garden has been recreated on the site formerly occupied by the Dockyard Porter's garden. We took over the planting and gardening early in 2001 and have been maintaining and filling the new flower beds with period flowers ever since. Our main objective is to recreate the Porter's garden with reference to its historical, educational and recreational value

Many hands make light work and it is very satisfying and enjoyable to see the results. There are a variety of tasks, from digging to weeding to transplanting
